Projects

UTS Course Assignment Website

HTML, CSS, JavaScript, FTP (FileZilla)

- Developed a simple personal website to organize and showcase course assignments from a Web Programming class.
- Designed a responsive and user-friendly layout using HTML and CSS.
- Uploaded files and managed hosting via FileZilla using FTP protocol on a personal .my.id domain.

Hotel Management System

Java (OOP), MySQL

- Developed a simple hotel management system as part of an Object-Oriented Programming course project.
- Designed and implemented the database structure using MySQL to store and manage guest, room, and booking data.

JamuKita – UMKM Product Website

<https://jamukita.my.id/> | PHP, CSS, JavaScript, GitHub

- Built a product catalog and real-time search feature for a UMKM website as part of a collaborative team project.
- Developed dynamic product listing using PHP and styled the layout with custom CSS.
- Implemented a JavaScript-based product search for enhanced interactivity.
- Delivered a responsive, user-friendly interface to showcase traditional herbal products online.
- Collaborated with team members via GitHub, using branches, pull requests, and merge operations to manage code contributions effectively.

Lost & Found Campus Website

Laravel, MySQL, Tailwind CSS, Blade, GitHub

- Built a campus lost-and-found web application for a Web Programming Framework course project using Laravel 12.
- Developed core features including item reporting, item claiming, user authentication, and category-based filtering.
- Implemented a structured MVC architecture with Laravel controllers, models, and Blade templates.
- Designed the database using MySQL to manage item records, user data, and report status.
- Created responsive UI pages using Blade templating and Tailwind CSS.
- Deployed the project locally and managed versioning using Git/GitHub.

Courses Certification & Workshops

- **UI/UX Design Introduction** – MySkill Short Class (Jan 2024)
Completed a short course on UI/UX research and design fundamentals.
- **CSS Introduction** – MySkill Short Class (Jan 2024)
Completed a short course on the basics of CSS for front-end development.
- **Intro to Digital Marketing** – RevoU Mini Course (Feb 2024)
Completed a 2-week online course introducing digital marketing fundamentals.
- **Backend in Website Development** – MySkill Short Class (Jan 2025)
Completed a software engineering short class focusing on backend concepts.
- **AI for Everyone: Python Basics to NLP Applications** – Workshop by LABKOMP UNSIKA (Feb - Mar 2025)
Participated in a data science workshop focused on Python basics and Natural Language Processing.
- **Intro to Software Engineering** – RevoU Mini Course (July 2025)
Completed a 1-week online course introducing software engineering fundamentals.
- **Google Cloud Computing Foundations Certificate** - Google Cloud (Aug – Des 2025)
Completed a certification program covering the fundamentals of cloud computing, networking, security, and cloud-based infrastructure management.

Technical Skills

- Programming Languages: HTML, CSS, PHP, JavaScript, Python.
- Tools/Framework: Canva, Microsoft Word, Microsoft Excel, Bootstrap, FileZilla, VSCode, Laravel, Git & GitHub.

Soft Skills

Communication, Adaptability, Responsibility, Teamwork
